Professional Summary

A highly motivated and goal-driven computer science student entering my final year at Kirinyaga University. Passionate about building real-world solutions using **Java**, **JavaScript**, and their frameworks. Skilled in leadership, teamwork, and communication. Currently focusing on hands-on projects to gain practical experience and build a solid technical foundation.

Technical Skills

- Java (Core, OOP, JDBC)
- Spring Boot (currently learning)
- JavaScript (ES6+), DOM manipulation
- HTML5, CSS3, Responsive Design
- MySQL (basic), REST APIs
- Git & GitHub

Education

Kirinyaga University – BSc in Computer Science (Expected 2026)

Relevant Coursework: Data Structures, Software Engineering, Web Development, DBMS, System Design, Operating Systems

Don Bosco Technical Secondary School – Class of 2021

Kahawa Primary School – Class of 2017

Projects & Practical Experience

- **Personal Portfolio Website:** Developed using HTML, CSS, JavaScript. Responsive and animated design. *(View Project)*
- **To-do List App:** Built using JavaScript with localStorage integration

Leadership & Soft Skills

- Led a team in a group project (Semester 6)
- Public speaking and presentation skills
- Strong communication and collaboration abilities
- Critical thinking and problem-solving
- Team-oriented and adaptable
- Eager to learn and grow professionally

Career Objective

To secure an internship or junior developer role where I can apply my skills, contribute meaningfully to a development team, and grow under experienced mentorship.

Extras

- Languages: English (Fluent), Kiswahili (Fluent), French (Basic)
- Availability: Immediately available for internship/remote roles
